

"My Wonderful Bible"

Sinners hate it and saints love it.

It promotes everything good and denounces every evil.

It denounces everything that would cause human sorrow.

Where the Bible is, there are hospitals, doctors, and all human mercies.

The more this book is given away, the greater its sale.

It is loved by those in every age in life.

It attracts the simplest minds and confounds the deepest thinkers.

It is loved by doctors, lawyers, merchants, bankers of every kind; whereas the libraries pertaining to their own kind of work are not attractive to those outside that line of service.

It is always up to date and meets today's needs.

It is so complete in its coverage of all human conditions that no one has ever written a chapter to add anything to it.

It has survived the ignorance of its friends and the hatred of its enemies.

It has remained on the battlefields of life to preach the funeral's of those who opposed it.

It is the only revelation of what lies beyond the tomb.

Its statements are so true it invites the criticism of historians, archeologists, scientists, and investigators of every kind.

Its statements are accurate concerning chemistry, astronomy, geology, mathematics, botany, anatomy, and all other arts and science.- Author Unknown
