

(Continued)

Of course, that is not the global warming most people are concerned about. But why not? Which of the following three scenarios is more pertinent to our daily lives and our futures?

- 1) Mankind may end civilization with nuclear bombs.
- 2) Mankind may destroy life on earth by disregarding the global warming trend.
- 3) The God who created the earth will one day burn it up.

***Which of the three should levelheaded people be more concerned about?***

The scenarios #1 and #2 are materialistic concerns, while issue #3 is a spiritual concern! No matter what humans do to "save planet earth," God has scheduled the planet for destruction, and **God has scheduled us for a judgment.** In **II Pet. 3:9** Peter says that "*the Lord is not willing that any should perish, but that all should come to repentance.*" And verse 11 says, "*Seeing then that all these things shall be dissolved, what manner of persons ought you to be in all holy living and godliness.*"

God calls us to make more drastic changes than recycling plastics and burning less fossil fuels. God is calling us to quit cheating, lying, stealing, fighting, drinking, gambling, complaining, aborting babies, having affairs, living luxuriously, and the like. God is calling us to live holy lives, spiritual lives, lives that put Christ first, others second, and material things last. Are we ready for God's day of global warming?

**Plainly, don't get short changed.** Let's be ready to meet our Maker. The Bible (in Acts) teaches that to avoid hell and gain heaven - one must:

- 1) Believe In Jesus As Savior (16:31)
- 2) Repent Of Sins (17:30)
- 3) Confess Christ Audibly (8:37)
- 4) Be Baptized In Water (2:38)
- 5) Live A Christian Life (14:22)
- 6) Be Active In the Church (2:47)
