

SELF DEFENSE - WASP SPRAY

By Dr. Hoyt W. Allen, Jr.

Someone said, "If you don't have a gun and don't want one, here's a way to wreck someone's wicked plans for you. I never really thought of it before. I guess if you choose this self defense method you can get rid of the baseball bat.

Wasp Spray - a friend who is a receptionist in a church in a high-risk area was concerned about someone coming into the office on Monday to rob them when they were counting the collection. She asked the local police department about using pepper spray and they recommended to her that she get a can of wasp spray instead.

The wasp spray, they told her, can shoot up to twenty feet away and is a lot more accurate, while with the pepper spray, they have to get too close to you and could overpower you. The wasp spray temporarily blinds an attacker until they get to the hospital for an antidote. She keeps a can on her desk in the office and it doesn't attract attention from people like a can of pepper spray would. She also keeps several cans nearby at home for home protection.

On the heels of a break in and beating that left an elderly woman in Toledo, OH dead, self defense experts have a tip that could save your life. A person who teaches self-defense to students at an area High School has suggested, for decades, putting a can of wasp and hornet spray near your door and bed. He says that, "This is better than anything I can teach them." He considers it inexpensive, easy to find, and more effective than mace or pepper spray. The cans typically shoot 20 feet or more so if someone tries to break into your home, he says "spray the culprit in the eyes." It's a tip he's given to students for decades.

This Self Defense Instructor says, "If you're looking for protection, look to the spray. That's going to give you a chance to call the police; maybe get out." Maybe even save a life. Please share this with all the people who are precious to your life. Did you also know that wasp spray will kill a snake? And a mouse! Good to know, huh? It will also kill a wasp!
